

SOCIAL STORY

# FIREFIGHTERS ARE FRIENDS

Firefighters are community helpers, just like doctors, police officers and ambulance officers.

Firefighters help the community stay safe in many different ways.

# FIRE

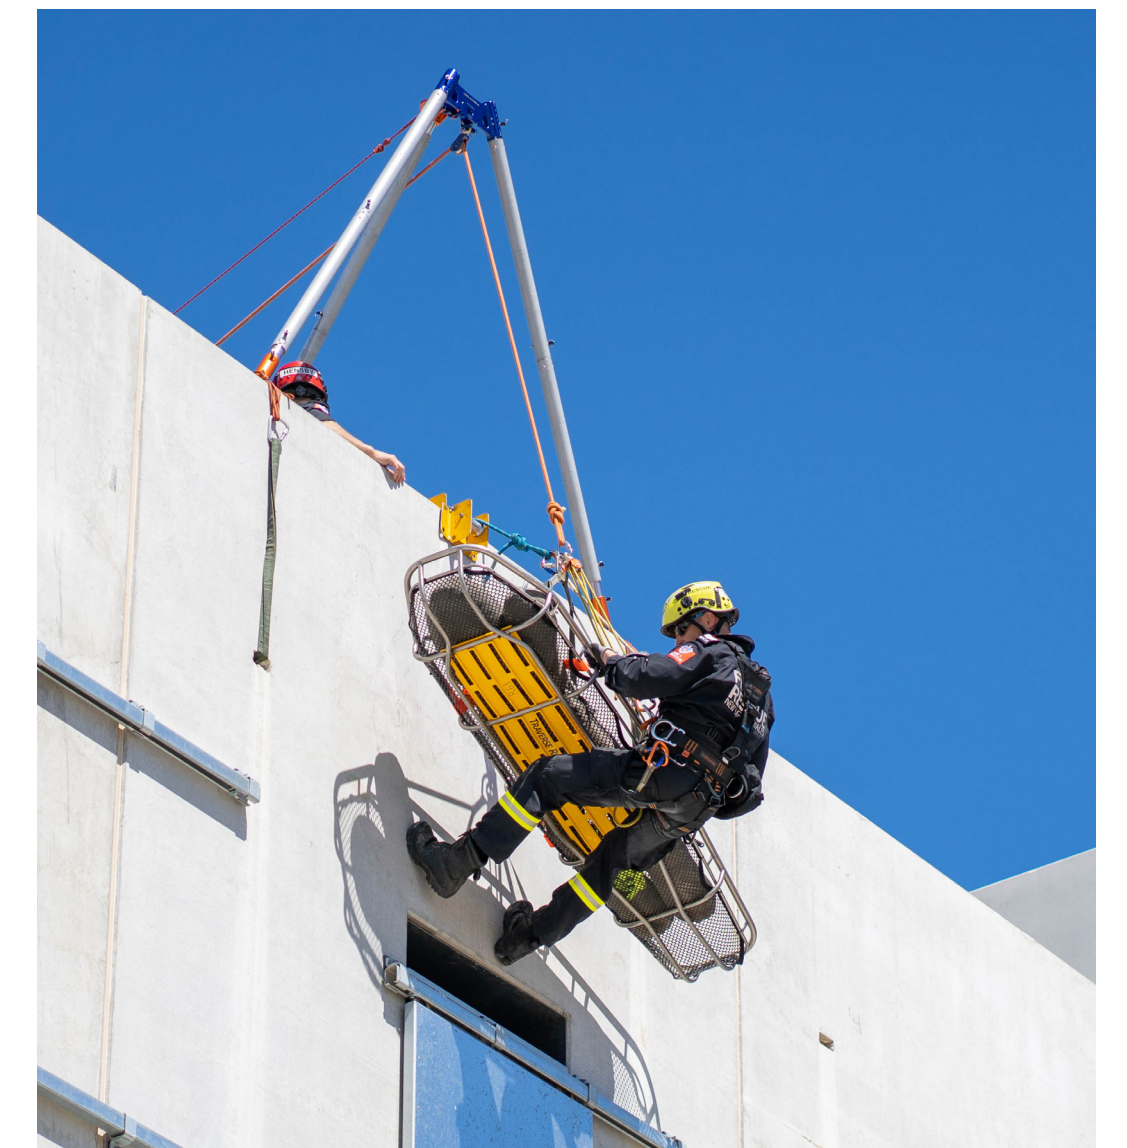

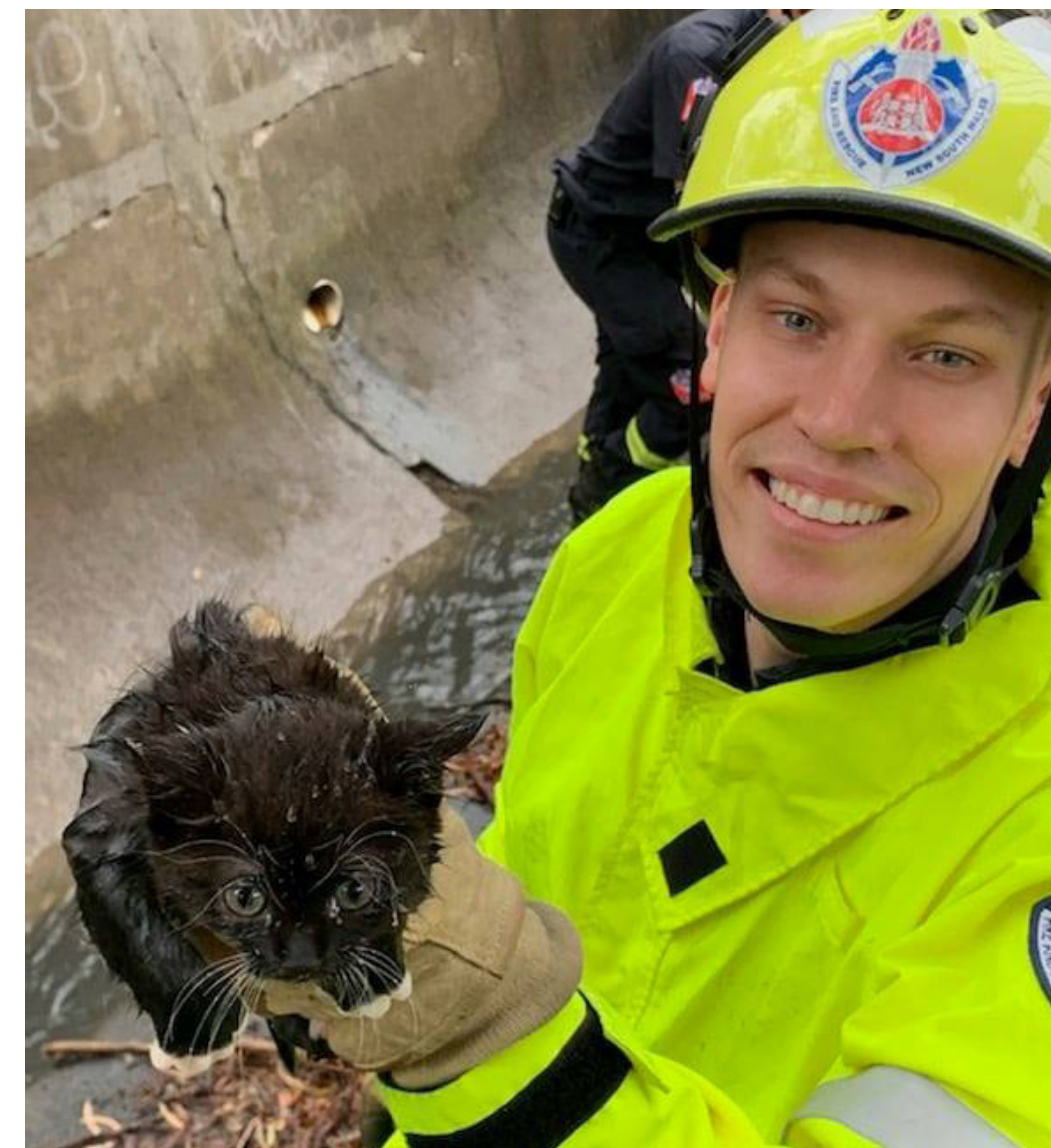

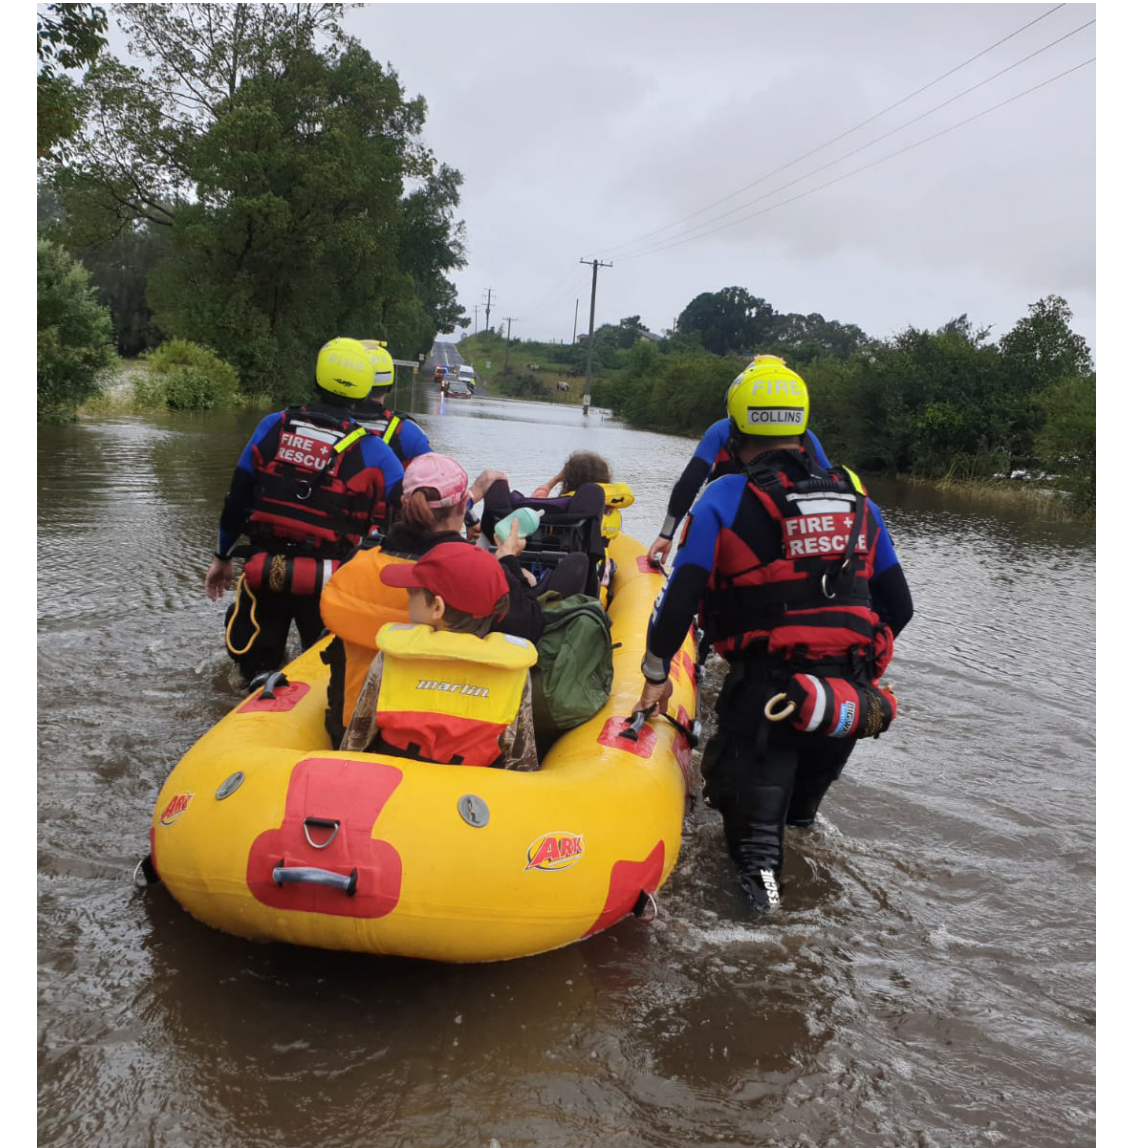

Firefighters put out fires in buildings, cars, and the bush.

# RESCUE

Firefighters rescue people and animals.

# TEACHING THE COMMUNITY TO BE SAFE

Firefighters visit schools and homes to teach the community how to stay safe.

Firefighters wear special clothing and equipment to keep them safe from fires.

Firefighters wear masks so they can breathe clean air in a fire.

If I see a firefighter in a mask, it means they are there to help me. I should get their attention or go towards them.

Firefighters are your friends and are safe people to go to, especially when there is a fire.
